Sellier & Bellot

The cartridge of high repute!

For more than 100 years the brand "Sellier & Bellot" has been the acme of perfection in ammunition industry of all the world. Closely connected with it is a grand development in the line of the manufacture of hunting ammunition and sporting ammunition. For this reason, the cartridge is the result of the ballistic attainments of a modern factory of sporting cartridges.

Our high-quality cartridges

distinguish themselves, as to ballistics, by the following special characteristics and advantages:

1. Covered rust-free ignition (device), system Gevelot – "Sincorro".
2. Best gelatinized nitrocellulose flake powder.
3. Hard small shot of a maximum uniformity.
4. Greased elastic wad of best hair felt, both sides coated with paper.
5. Velocity V 5, averaging 360 m/s.
   Gas pressure Cal. 12 = 450 atü (= atmospheres absolute pressure), Cal. 16 = 550 atü.
6. Charged shot:

Cal. 12 – 65 mm (2 1/2 ")	= 34 g	(1 1/5 oz)
Cal. 12 – 70 mm (2 3/4 ")	= 36 g	(1 1/3 oz)
Cal. 16 – 65 mm (2 1/2 ")	= 29 g	(1 oz)
Cal. 16 – 70 mm (2 3/4 ")	= 31 g	(1 1/10 oz)
Cal. 20 – 65 mm (2 1/2 ")	= 26 g	(9/10 oz)
Cal. 20 – 70 mm (2 3/4 ")	= 27 g	(0,95 oz)

Hubertus
SINGORRO

Very good coverage and penetrating power

are the particular essential characteristics of the brand "Hubertus". If quick firing is required as, for instance, when the huntsman is out snipe-shooting or jack-snipe shooting, the brand "Hubertus" is given the preference because its rate of fire V 5 is always above 350 m/s.

SB
SB
SB

The miniature rifle shooting

is the kind of sport which expects a great deal of the huntsman and, in addition to that, a trained eye as well as rigid physical training. Last but not least, the quality of the cartridges used is, apart from a good rifle, most decisive.

The ammunition calibre 22, brand SB, which has been manufactured in accordance with the latest experiences and achievements, offers the huntsman a good grouping of hits (on the target). The brand SB is the mark of quality of an ammunition which guarantees the huntsman's success.

Auberlin

The brand "Hubertus"

was, is and will be the cartridge that never disappoints. With it great hunting successes have been achieved, always and everywhere, when out hunting no matter if it is fired in the blazing heat of the tropical sun or if in the mountains with snow and ice.

Its reliability has been increased to a maximum by a complete varnish colour coat on the cartridge case, the choice of a first-rate gelatinized nitrocellulose flake powder together with a safe and rust-free ignition (device) "Sincorro". Therefore, the brand "Hubertus" is given the preference everywhere.
